## 7). Netwin InfoSolutions — Jan 2017 – Jul 2017 (Web Development Intern)

- Assisted in PHP and Flask application development
- Supported backend testing and debugging

## SELECTED PROJECTS:

---

### 1. Naam Jap Shibir – Real-time Event Tracking PWA

**Technologies:** React.js, Tailwind CSS, Laravel 10, Sanctum, MySQL

Built a Progressive Web App(PWA) for real-time participant tracking during a multi-day event. Implemented family login, attendance tracking, live jap count aggregation, geolocation validation, and Excel participant import. Developed secure REST APIs and an admin dashboard. Deployed scalable frontend/backend infrastructure.

### 2). EC Mall – Multi-Vendor E-Commerce Platform

**Technologies:** Laravel, PHP, MySQL, JavaScript, Bootstrap

Developed a scalable multi-vendor e-commerce platform with seller dashboards, service booking, shipping automation, and order lifecycle management. Implemented role-based architecture allowing independent seller operations under centralized admin control.

### 3). Samurai Golf Tours

**Technologies:** Laravel, jQuery, Mapbox API, SQL

Developed a booking platform for Japanese golf tours featuring location mapping, course booking system, and admin panel for managing requests. Integrated automated email communication and improved booking workflow efficiency.

### 4). Shopify Smart Product Filter – Embedded App

**Technologies:** Laravel, Shopify API, App Bridge, JavaScript, MySQL

Built a Shopify embedded app enabling merchants to create dynamic storefront filters using Theme App Extensions. Implemented OAuth authentication, admin dashboard configuration, and theme-agnostic integration without Liquid code changes.

### 5). Online MCQ Examination API

**Technologies:** Laravel, REST API, MySQL, JWT

Developed a secure multi-tenant backend API for online examination systems with role-based access, exam management, result processing, and performance tracking.

### 6). Kaamkaz Website Revamp & Admin System

**Technologies:** React.js, Tailwind CSS, REST APIs

Enhanced job platform frontend and admin dashboard with responsive UI, API integration, authentication flows, and employer/employee management features.
